## ***Jornik boosts contract printing capabilities with acquisition of Zan!***

Jornik Manufacturing Corp., a family-owned and operated award-winning supplier known for a wide variety of creative products and exceptional service, has announced the acquisition of Zan Enterprises Inc., a contract printer.

The acquisition of Zan Enterprises has afforded Jornik increased capacity for handling the significant growth of its product line, as well as providing a full service department for a myriad of contract printing projects. This will not only enable the company to provide enhanced service to its distributors on their regular line, but significantly boosts their capabilities in decorating a vast array of items. Zan's current customers have been very pleased with the smooth transition.

Jornik and Zan management were aware of each other for some time and have had a good relationship. While Jornik is a recognized industry imprinting leader, the quality of Zan's printing has also been superb. They have taken on challenging contract decorating jobs that were only possible with imaginative leadership and knowledge. This workmanship and management philosophy fit in with Jornik's organization perfectly.

Jornik is an ASI five-star supplier that offers toys, beach balls, fishing lures and other outdoor fun products, electronics accessories, name badges, writing instruments, flashlights and many other items. Zan Enterprises specialized in a number of printing methods, including pad printing, injection molding, hot stamping and CAD/CAM.

**Industry-Leading  
Contract Printing!**
