**Kit includes:**  
**6 soil pellets, 3 wooden stakes,**  
**3 sets of seeds**

**Instructions:**

Remove cover and place underneath egg carton.  
Place 1 pellet in each egg holder and add 2 tablespoons  
of water, wait for 10-15 minutes for the pellets to expand.  
Next, stir the soil and press 3-4 individual seeds about  
1/4" deep, pinch soil to cover seeds and water again  
very lightly. Water daily or as needed to maintain  
a moist but not soaking wet environment.  
Place away from air-conditioners or cold  
non-insulated windows.
