Pepper Garden

Jalapeno - Cayenne - serrano

Instructions:

Remove cover and place underneath egg carton.

Place 1 pellet in each egg holder and add 2 tablespoons of water, wait for 10-15 minutes for the pellets to expand.

Next stir the soil and press 3-4 individual seeds about 1/4" deep, pinch soil to cover seeds and water again very lightly. Water daily or as needed to maintain

a moist but not soaking wet environment.

Place a way from air-conditioners or cold.
